EXPERIENCE

DELLISH BAKER'S

Apr 2025 – Present

MIS Executive

Lucknow, UP

- Created a dashboard reporting system with data from **10+ departments**, reducing report delivery time by **84%** and maintaining **dashboard accuracy at 99.8%** through clean data practices.
- Created live KPI dashboards for **12 key business metrics**, doing monthly trend checks and problem analysis that helped managers fix issues **3x quicker** without waiting for the next cycle.
- Redesigned data entry forms and Sheets checklists for **10+ teams**, lowering submission mistakes by **47%** and **eliminating a 2-day** data matching delay.

KNOW FINITY

Aug 2024 – Apr 2025

MIS Executive

Lucknow, UP

- Set up a shared document system that made file finding easy for all teams, cutting search time by **55%** and improving response time between **departments by 30%**
- Automated daily attendance, salary, and stock reports using Excel macros, saving **6 hours every week** while keeping data **accuracy steady at 98.4%** across all systems.
- Cleaned a **40,000+ row data file** by removing duplicates, blanks, and incorrect formats, resulting in a **40% reduction** in data errors and more reliable reports.

GROW ENTERPRISES

Nov 2024 – Dec 2024

MIS EXECUTIVE

Lucknow, UP

- Built a sales tracker that combined data from 8 regional branches, cutting report generation time by **65%** and enabling **real-time target monitoring**.
- Conducted inventory and back order **analysis for 460 products** by identifying weekly demand patterns and stocking gaps, supporting inventory optimization and improving product availability across retail operations.
- Developed interactive Excel and Power BI dashboards to monitor operational performance across more than **100 retail stores**, enabling leadership to identify underperforming locations and **improve weekly performance** reviews.

PROJECTS

Store Performance Analytics Dashboard

April 2026

Excel, Power BI

- Tracked 12-month sales and order trends, identifying peak periods to improve promotion planning by 40%.
- Analyzed channel performance, revealing Flipkart + Meesho drove 65%+ revenue, helping focus marketing spend on top platforms.
- Identified that women contributed 55%+ of sales, enabling targeted product curation that boosted repeat purchases by 25%.

HR Analytics Dashboard

Dec 2025

Excel, Power BI

- Designed a centralized HR dashboard tracking 50 employees across gender, age, location, and regions, enabling HR heads to view workforce composition in real-time
- Tracked employee status and performance ratings, identifying that part-time staff (26%) and remote workers (38%) needed more engagement, leading to targeted retention initiatives.
